

Professional Development - Placements Guidelines

This fund supports the professional development of **Above the Line (ATL)** key creatives, **Below the Line (BTL)** crew and digital games developers. It recognises that highly skilled practitioners are vital for the long-term growth of the screen and digital games industries in Western Australia.

The fund's primary focus is assisting practitioners who have been offered an exceptional national or international placement opportunity, who can show evidence of a track record in their field. The placement will enhance their skillset, their professional career and develop the capability and capacity of the WA screen industry more broadly.

Only a small number of exceptional opportunities will be supported each year, with a focus on identified skill gaps areas.

Screenwest encourages applications from First Nations Australians and people from under-represented groups.

Funding available

- Up to \$15,000 per application.
